User journey

by the Design Team of Accenture Interactive NL

People

Time 30 min

Creating a user journey is a quick way to help you and your team gain a deeper understanding of who you're designing for, aka the stakeholder in your project. The information you add here should be representative of the observations and research you've done about your users. \wp

Phases gh-level steps your user needs to complish from start to finish	Inspiration	Visualisation of the available datas	Identifying solutions for the queries by asking to experts	Achieving a better yield
2 Steps Detailed actions your user has to perform	Gathering Reach out for the regarding appropriate crop yields facilities	List the queries to be solved by the experts Solution for general query actions	Seeking queries on the issues faced Querying regarding the crop yielding and other means	Provide farmers with an effective and adequate solutions Provide farmers with the knowledge of sowing for a better yield
3 Feelings What your user might be thinking and feeling at the moment	Excited to description of the second of the	Satisified with the response Confident about the success	Convenience receive accurate response	Contented Accepted
	Nervous Doubtful Exhausted	Fear Stress	Anxious Trust issue	Worried Unsatisfied
